

Glueing Device

«AX»

- Efficient silk screening unit for sample cards
- Output up to 300 cards per hour
- Handles any card size
- Precise spot-glueing thanks to hand-cut films
- Simple and effortless handling
- Precise positioning of sample card during glueing process
- Powered squeegee
- Adjustable thickness of glue layer thanks to interchangeable screens with different mesh

Technical Data

Glueing surface	650 x 420 mm
Card size	720 x 550 mm
Card feeding	single, manual
Dimensions	Length 1180 mm
	Width 980 mm
	Height 1140 mm
	Working height 940 mm
	Weight 110 kg
Electrical details	1 x 230 V / 50 Hz
	1 x 110 V / 60 Hz
Compressed air requirement	5 bar / 150 l/min
